Require them to meet with a counsoler to develop an education plan, and meet once a semester to oversee Career/school plan and acomplishments.

Required time with counselors instead of optional

Scholarships, longer library hours, "doing great with the computer service offered."

Split math 50 and Math 52 classes & statistics. I would greatly benefit from slowed down math classes and I know other students express the same need.

They should have more programs

Trips to different colleges, gives the students a chance to see what programs are actually available

Work experience

Work experience! College should make agreements with stores to have students be interns.

Yes they did.

yes, told me wat I need to take for transferring.
